CNPortfolio: test log

NIWENIRINGIYE Christian | 25/27889 | MOB_A2_2527889

Template. Fill in every blank yourself while testing the installed APK. Do not mark a test Pass unless you ran it.

Tester	NIWENIRINGIYE Christian
Device model	
Android version	
APK / build	MOB_A2_2527889.apk (version 1.0.0)
Test date	
Commit hash tested	

#	Test	Expected result	Pass / Fail	Notes
1	Install the APK on a phone without Expo Go	App installs and opens		
2	Home: first sentence	Reads exactly "My name is NIWENIRINGIYE Christian."		
3	Home: identity details	Avatar or photo, headline, introduction and MOB-A2-7889 are visible		
4	Skills: content	At least five skills and an education timeline are shown		
5	Projects: list and detail	Each project opens its own detail screen with problem, contribution and technology		
6	Back navigation	Back from Project Details returns to the list; the current tab and state are kept		
7	Editor: validation	Empty, too short, too long and invalid-character inputs show field messages; Save is blocked		
8	Editor: valid save	Valid input saves and shows the saved message		
9	Persistence	Close the app fully, reopen it: headline, biography, skill, availability and photo are restored		
10	Photo: camera	Allow permission, take a photo: preview appears and persists after restart		
11	Photo: permission denied	Deny camera permission: clear message, current photo unchanged, gallery still works		
12	Photo: cancelled	Cancel camera or gallery: message shown, nothing changes		
13	Photo: replace and remove	Replace changes the photo; Remove returns to the CN avatar		
14	Airplane Mode	All screens work with no connection; GitHub link shows a friendly message		
15	About screen	Shows CNPortfolio, NIWENIRINGIYE Christian, 25/27889, MOB-A2-7889, version and data-use statement		
16	Large system text	Largest font size: no clipped or overlapping text on Home, Edit and About		

#	Test	Expected result	Pass / Fail	Notes
17	TalkBack	Buttons, inputs and errors are announced sensibly
